

The Rates of Reaction Crossword

Across

- 1 Minimum amount of energy needed for particles to react (10)
- 7 Bacteria can make this acid from lactose in milk (6)
- 9 These reactions give out energy (10)
- 10 Reactions where products can react to make reactants are this (10)
- 13 You get less product in an endothermic reaction if the temperature is ... (9)
- 15 This happens to the rate of reaction if the temperature is raised (4,6)

Down

- 2 Particles must do this to react (7)
- 3 You get more product in an exothermic reaction if the temperature is ... (9)
- 4 Proteins found in living things that do the job of 8 down (7)
- 5 The process that yeast use to produce alcohol (12)
- 6 These are used up in reactions (9)
- 8 These substances increase the rate of a reaction but don't get used up (9)
- 11 These are made in reactions (8)
- 12 This is released when bonds are made (6)
- 14 Small pieces of solid have large surface ... (5)
